Charged Battery Storage

Bad Battery Storage

1

Connecting power

Connect the C-Type cable supplied at the back of the Eneroid. Press the power button briefly to enter standby mode (power button blue LED lights up).
2

Any Polarity Direction

Regardless of the direction of the battery terminal, ENEROID is able to recognize the terminals and charge up the batteries automatically.
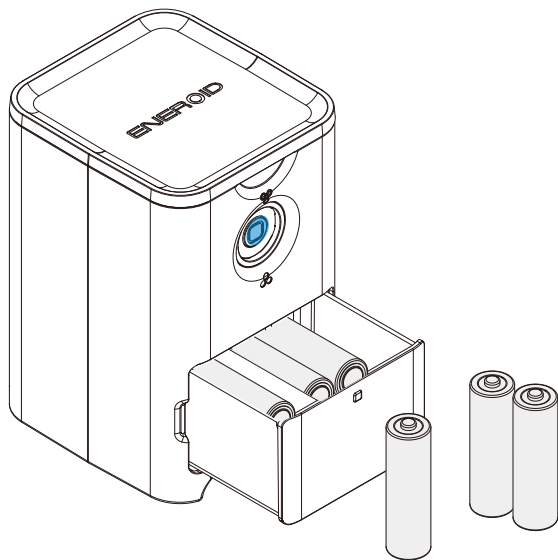

3

Charging the Batteries

Close the cover and press the power button in standby mode to start charging. While charging, the red LED on the Eneroid's power button blinks.

4

Bad | Charged

Using the battery

When charging is complete, the unit enters standby mode. Open the locker and use a charged battery on the right side of the locker. Discard the batteries in the defective battery compartment on the left side of the cabinet as they can no longer be reused.

⭕ Sleep mode

While in sleep mode or charging, press the power button briefly to switch to standby mode. When in standby mode, the blue LED on the power button turns on. If you do not use your computer for a certain period of time, it goes to sleep (power button LED off).

⭕ Manual battery drain

If you press and hold the power button for 3 seconds in standby mode, all the batteries in the standby part and the charging part are discharged to the fully charged storage box.
⭘ Error

You can handle the error situation intuitively with the LED lighting of the ring. When the LED above the ring lights up, open the cover and check the waiting area. When the LED below the ring lights up, open the storage box and check if the battery is full.

No battery in the stand-by room

The LED will light up at the top of the ring when the battery is hanging or there is no battery to charge. Open the cover and check if the battery is present.

Full Battery Storage

When the compartment is full of batteries and can no longer be ejected, the LED on the bottom of the ring lights up. Open the locker and collect the battery before use.
Other errors

When there is a malfunction or unknown problem, the LEDs light up at the top of the ring. Please contact the service center.
